Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Wednesday 06 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Dry with cloud increasing from the west, warm.

This Evening and Tonight:
Cloud continuing to increase from the west with it becoming largely overcast across the whole region by midnight. Low cloud resulting in hill fog across the moors with perhaps the odd spot of rain. Minimum temperature 9 deg C (48 deg F).

Thursday:
A damp start to the day in western areas with some patchy rain and drizzle over the moors. Otherwise a dry day for most with some bright spells developing. Warm. Maximum temperature 20 deg C (68 deg F).

Outlook for Friday to Sunday:
A fine and warm day on Friday and Saturday after the clearance of morning mist and low cloud. Some patchy light rain sinks south early Sunday with brighter conditions following.
